

NATIONWIDE CRIMINAL DATABASE SOURCES

All Nationwide Criminal Database Searches include a search of the National Sex Offender Registry Search as well as a search of the Homeland Security Watch List. Please see the documents for these products to learn more about the scope of each.

IMPORTANT DISCLAIMER:

Although "Nationwide" in scope, the data is compiled from multiple public record data sources. We make no claims to the completeness or accuracy of the database, or that data for all states or jurisdictions is included in the current product offerings. We acknowledge that the service provided here does not substitute for an in-person courthouse search of criminal records, and we recommend that the database products be added to end-user's traditional screening methods. We take reasonable measures to update these records as available, but as in all public records, we rely on the completeness and accuracy of each state's records.
